

Lavantine Eatery Tutorial

Razan Shams, Zeinab Zeine

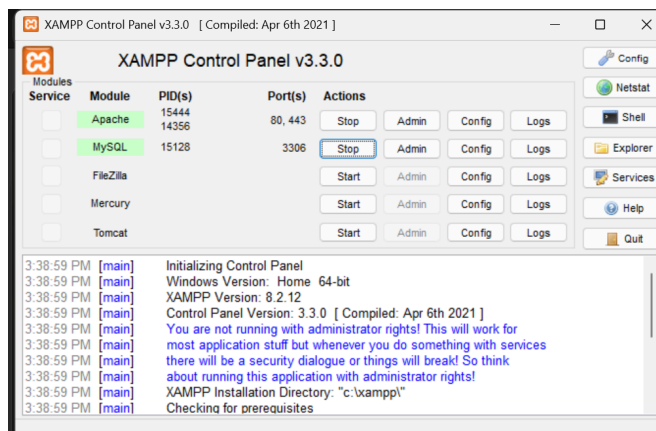

Set up and installation:

Before using Lavantine Eatery, you need to set up a local server environment. Follow these steps carefully to get the application running on your computer.

Step 1: Install XAMPP

XAMPP is a free software package that gives you Apache (web server) and MySQL (database) on your local computer. Without it, PHP and MySQL cannot run.

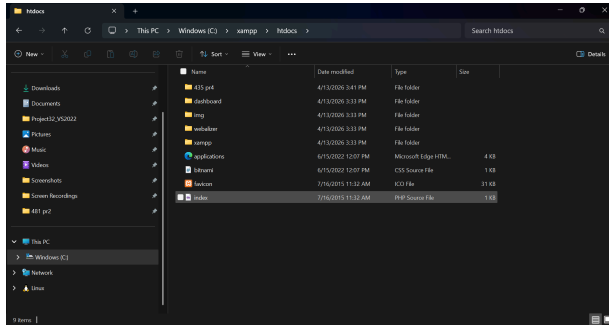

1. Go to <https://www.apachefriends.org>
2. Click Download for Windows
3. Run the installer and click Next through all the default options
4. Once installed, open the XAMPP Control Panel
5. Click Start next to Apache - it should turn green
6. Click Start next to MySQL - it should turn green

Step 2: Copy the project files

The project files must be placed inside XAMPP's web server folder so Apache can serve them.

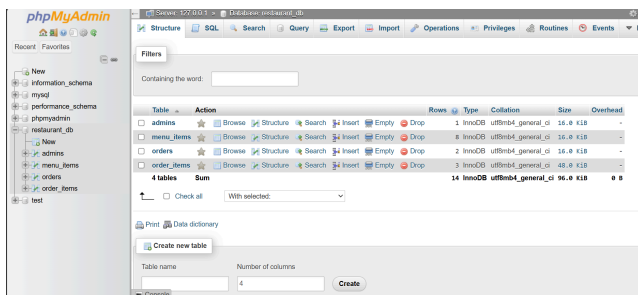

1. Download or clone the project from GitHub
2. Copy the entire project folder into C:\xampp\htdocs\
3. Your project should now be at: C:\xampp\htdocs\Lavantine-Eatery\

Step 3: Import the database

The project includes a file called `restaurant_db.sql` which contains all the database tables and sample menu data. You'll need to import this into MySQL.

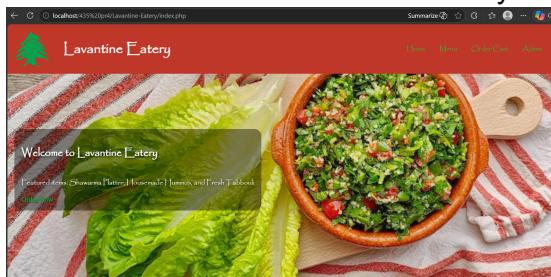

1. Open your browser and go to <http://localhost/phpmyadmin>
2. Click New in the left sidebar
3. Type `restaurant_db` as the database name and click Create
4. Click on `restaurant_db` in the left sidebar to select it
5. Click the Import tab at the top
6. Click Choose File and select `restaurant_db.sql` from the project folder
7. Scroll down and click Go
8. You should see a green success message = the database is ready

Step 4: Open the application

Now that Apache, MySQL, and the database are all set up, you can open the application in your browser.

1. Open Chrome or Edge
2. Paste this URL in the address bar: <http://localhost/Lavantine-Eatery>
3. You should see the Lavantine Eatery home page!

Customer Experience:

Once the application is running, customers can now browse the restaurant.

Section 1: Home Page

After pasting the link, you are greeted by the home page. The page features:

- A slideshow banner that automatically cycles through featured menu item images every 3 seconds
- An **Order Now** button overlaid on the banner that takes you directly to the menu
- An **About Us** section describing the restaurant
- A **Contact Us** section with the restaurant's email and phone number
- A navigation bar at the top with links to all pages

About Us

Just two girls from Dearborn who want to share the amazing flavors of Levant with the world. What started out as our hobbies became a passion. After everyone in our lives telling us how amazing our food is, we decided it would be a crime not to share it with the rest of the world.

Contact Us

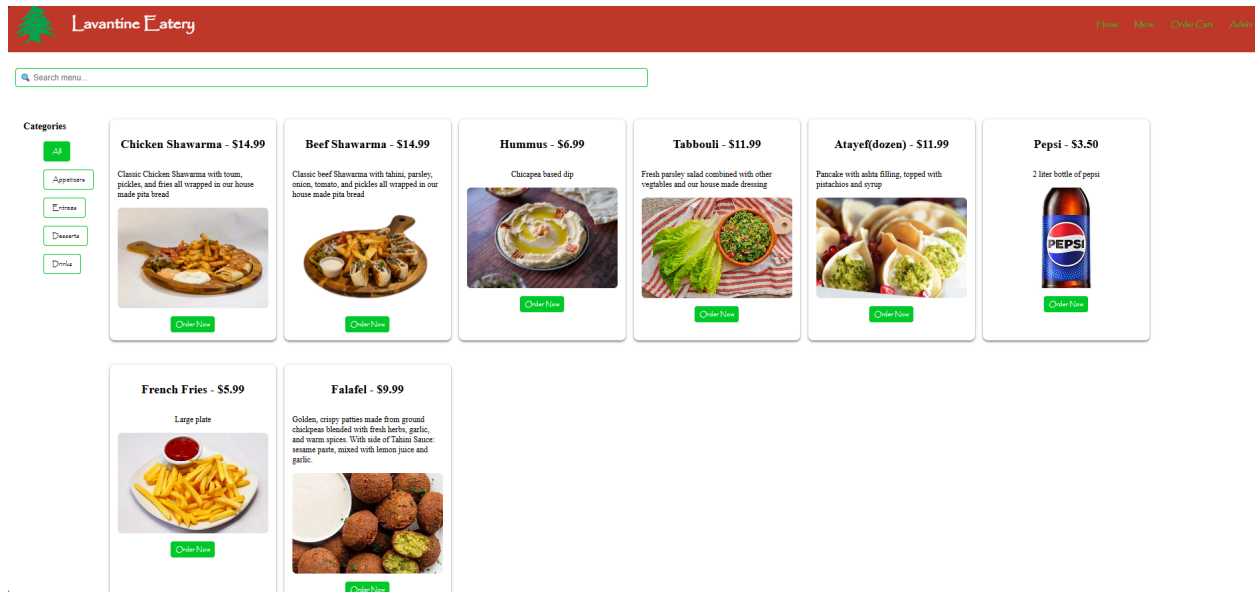

Have questions or want to place a custom order? Reach out to us!

- Email: yomama@lavantineeatery.com
- Phone: (555) 125-4567

Section 2: Menu Page

Click **Menu** in the navigation bar to browse all available items. The menu page displays all items from the database in a card layout. Each card shows:

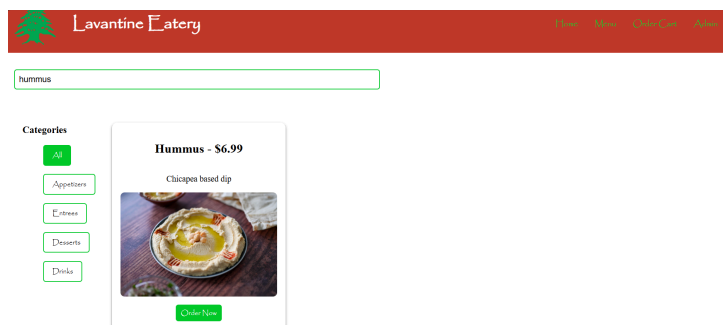

- The item's name and price
- A description of the dish
- A photo of the item
- An **Order Now** button to add it to your cart

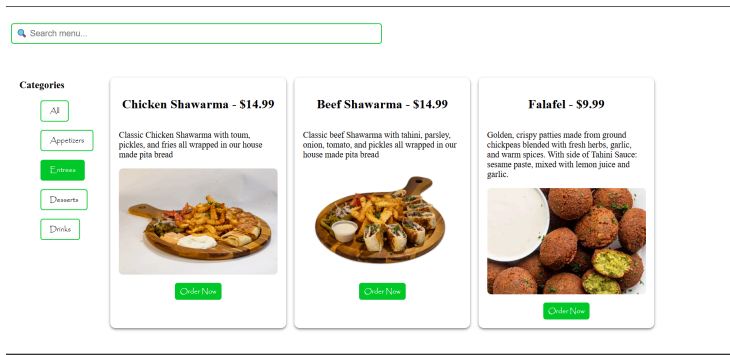

Section 3: Searching and Filtering

The menu page includes two ways to find specific items:

- **Search bar:** Type any letter or word and the menu instantly filters to show only items whose name contains that text
- **Category buttons :** Click Appetizers, Entrees, Desserts, or Drinks to show only items in that category
- Both work together: you can filter by category AND search by name at the same time

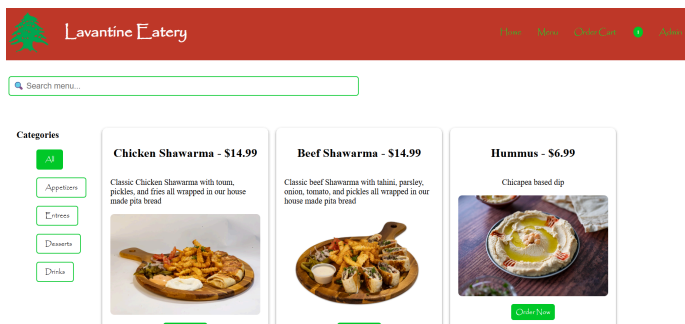

Section 4: Adding Items to cart

To add an item to your cart:

1. Find the item you want on the menu page
2. Click the **Order Now** button on that item's card
3. You will be taken to the Order Cart page where the item now appears
4. Notice the **Order Cart** link in the navigation bar now shows a number badge showing how many items are in your cart
5. Click **Menu** to go back and add more items - your cart is saved!

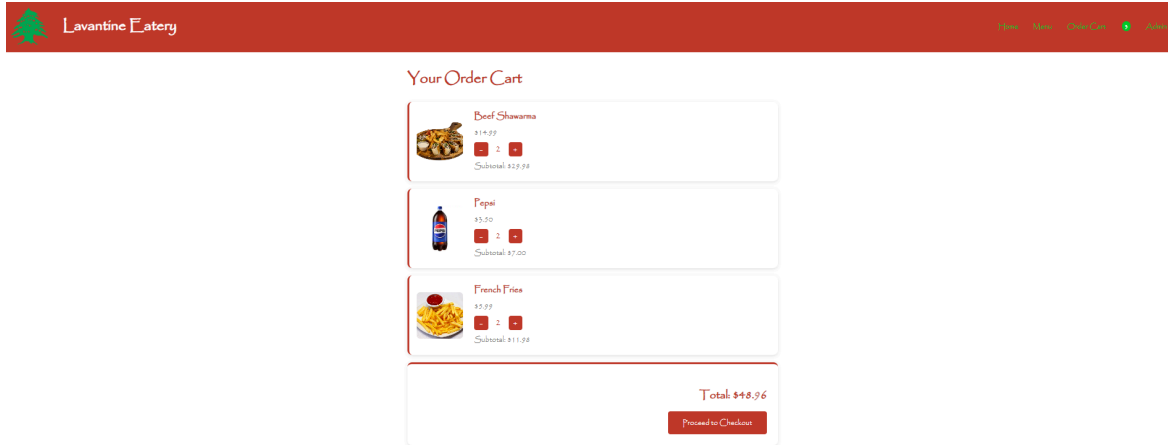

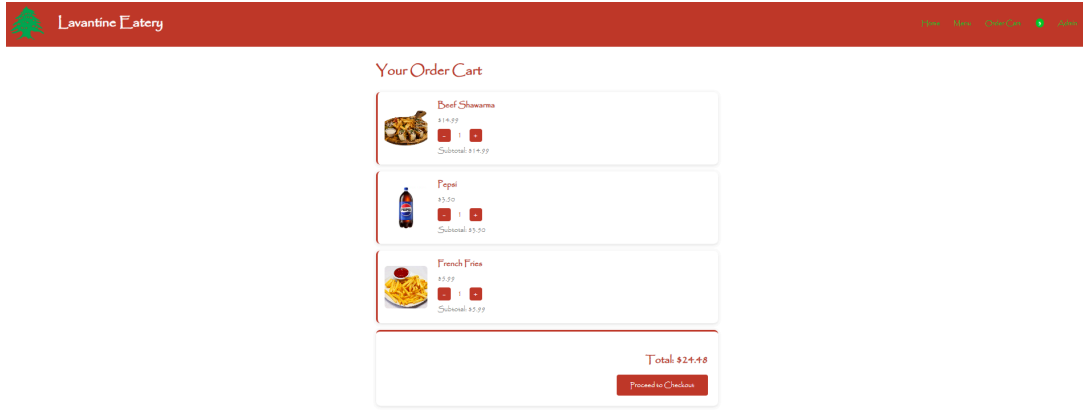

Placing an Order:

Once you have added items to your cart, you can review your order, adjust quantities, and complete your purchase through the checkout page. This page walks through the full ordering process.

Section 1: Viewing the Cart

Click **Order Cart** in the navigation bar to view your cart. The cart page shows:

- A photo, name, and price for each item you added
- A quantity display showing how many of each item you have
- A subtotal for each item
- A grand total at the bottom
- A **Proceed to Checkout** button

Checkout

Order Summary

Beef Shawarma x2	\$29.98
Pepsi x2	\$7.00
French Fries x2	\$11.98
Total: \$48.96

Place Order

Section 4: Placing Order

To complete your order:

1. Enter your **full name** in the Name field
2. Enter your **email address** in the Email field
3. Click **Place Order**

The system will validate your input:

- If either field is empty - an error message appears asking you to fill in all fields
- If the email format is invalid - an error message appears asking for a valid email
- If everything is correct - your order is saved to the database and the cart is cleared

Section 5: Order Confirmation

After successfully placing your order you will see a success message saying your order has been placed. A **Continue Shopping** button takes you back to the menu to start a new order.

Admin Panel:

The admin panel is a secure section of the website accessible only to restaurant staff. It allows the admin to manage the menu and monitor incoming customer orders. This page walks through all admin features.

Section 1: Accessing the Admin Panel

To access the admin panel:

1. Click **Admin** in the navigation bar
2. You will be taken to the admin login page
3. Enter the admin username and password
4. Click **Login**

If the credentials are incorrect an error message will appear and you will stay on the login page. If correct you will be redirected to the dashboard.

Section 2: The Dashboard

After logging in you are taken to the admin dashboard. The dashboard has three main sections:

- **Add New Menu Item:** a form to add a new dish to the menu
- **Menu Items:** a table showing all current menu items with action buttons
- **Orders:** a table showing all customer orders and their current status

Section 5: Toggling and Deleting Items

Each menu item row has two additional buttons:

- **Toggle:** hides the item from the customer menu without permanently deleting it. Clicking it again makes it visible again. The Available column shows Yes or No to indicate the current status
- **Delete:** permanently removes the item from the database. This cannot be undone

Section 6: Managing Orders

The Orders table at the bottom of the dashboard shows all customer orders including:

- Order ID
- Customer name and email
- Current status (pending, preparing, ready, or completed)
- Date and time the order was placed

To update an order's status:

1. Find the order in the table
2. Click the **status dropdown** on that row
3. Select the new status
4. Click **Update**
5. The status is saved to the database

Orders					
Order ID	Customer Name	Customer Email	Status	Date	Actions
3	Zeinab Zeine	zzeine@unich.edu	preparing	2022-04-12 11:49:04	Pending Update
